Parking Notes

- There is ample accessible parking in downtown Chicago. We recommend using ParkWhiz.com, Spothero.com, and/or Parkchirp.com to find affordable and accessible parking ahead of time.
- Search by the Sheraton's address to find garages within close proximity to the event hotel.
- Be aware of underground parking and garages. Downtown Chicago has a network of underground roadways to help freight and locals get around. Civilian cars are permitted on these roadways but they are tough to navigate if you are unfamiliar. Try to avoid garages that are underground or with the address "Lower" in the street name.
- If you are going to park in a Garage on Lower Wacker Drive or any of the connected "lower" streets, we recommend researching directions beforehand and having them written/printed out as GPS does not work well in this network of underground roadways.
- If you need to arrange transportation to or from the airport, we recommend using Uber, Lyft, Taxi Services, or booking group transport through [Windy City Limousine](#). Please remember, no one should be approaching you at the airport to solicit rides. Do not accept rides from solicitors.
